February 28, 2013

Parents/Guardians:

Attached is the agreement for students in the **Bring Your Own Device/Technology** to school starting in the month of March.

**All parents** who wish for their child to participate in this program **must sign page two with their child.**

Please detach the remaining pages and return the signed page to the classroom teacher.

*Any student who does not return a signed agreement with both parent and student signatures will not be able to participate at this time.*

This is a new avenue for the school system that will allow us to use technology and truly be in the 21<sup>st</sup> century in the field of education.

Thank you for your help and cooperation in this endeavor.

Mr. Frank J. Paolino  
Principal

## Carrigan Intermediate School

### **Bring Your Own Device/Technology Student Agreement**

The use of technology to provide educational material is a privilege at school that we wish all students to have beginning at Carrigan Intermediate School in 2013. When abused, privileges will be taken away. When respected, they will benefit the learning environment tremendously.

Students and parents who bring their own device must adhere to the Student Code of Conduct as well as all Board policies, particularly the Internet Acceptable Use and Internet Safety. Additionally, students must adhere to the following:

Devices are to be used for instructional purposes connected to the approved curriculum, not to cheat on assignments or tests, not to make personal phone calls, not to send text messages, and not to post information, photos, or videos not authorized by the teacher.

Students acknowledge the following:

- Only the school's Internet will be accessed. Attempts will not be made to bypass the local connection.
- The District's network filters will be applied to one's connection to the Internet and attempts will not be made to bypass them.
- Only authorized data can be accessed. Infecting the network with a virus, Trojan, or program designed to damage, alter, or destroy the network; and hacking, altering, or bypassing security policies are not allowed.
- The school District has the right to collect and examine any device that is suspected of causing problems or was the source of an attack or virus infection.
- All data must be stored on the student's hard drive. Backing up the data through a jump drive, an external drive, or another media device regularly is strongly encouraged.
- As we are working to achieve a more paperless environment, printing from personal laptops will not be possible.
- As we do not have enough outlets for students to charge their devices in classrooms, each student must charge his or her own device prior to bringing it to school daily.
- Using a personal device to transmit or share inappropriate content during the school day will result in the loss of Bring Your Own Device/Technology (BYOD/BYOT) privileges. Additional consequences may be applied depending upon the circumstances. Transmission of material of a bullying nature or sexual nature will not be tolerated.
- Using a personal device at unauthorized times will result in the loss of BYOD/BYOT privileges. Use of these devices in the cafeteria, gymnasium, locker rooms, hallways, and bathrooms is strictly prohibited. The purpose of BYOD/BYOT is purely for the extension and enrichment of the learning environment.
- Devices cannot be used during assessments, unless otherwise directed by a teacher.
- Students must immediately comply with teachers' requests to shut down devices or close the screen. Devices must be in silent mode and put away when asked by teachers.

### Bring Your Own Device/Technology Student Agreement

- Students are not permitted to transmit or post photographic images/videos of any person on campus on public and/or social networking sites.
- Students can only access files on the computer or Internet sites which are relevant to the classroom curriculum and suggested by a teacher.
- Students are not to physically share their personal devices with other students, unless approved in writing by their parent/guardian.
- Personal devices may not be used to cheat on assignments, tests or for non-instructional purposes, such as making personal phone call and text/instant messaging.
- Personal devices may not be used to send inappropriate e-messages during the school day.

As a student, I understand and will abide by all on this agreement. I further understand that any violation is unethical and may result in the loss of my device privileges as well as other disciplinary action.

As a parent, I understand that my child will be responsible for abiding by the policy pertaining to this program and its guidelines. I further understand that the West Haven School District is not responsible for the loss or destruction of any device or technology brought to school from home. I have read and discussed them with him/her and he/she understands the responsibility he/she has in the use of their personal device.

## **Instruction**

### **Bring Your Own Device (DYOD) and Protocol for the Use of Technology in the Schools**

The following guidelines shall govern the manner in which the Bring Your Own Device/Technology (BYOD/BYOT) policy and program are to operate within the District.

#### Readiness

The implementation of this program will require the support of a robust wireless infrastructure. A network evaluation will be conducted to determine any and all necessary infrastructure changes and upgrades that are needed before a full implementation.

The implementation of the program may require minor changes in the manner network administration is currently done. Considerations must be given to issues of security, accessibility, cloud computing, etc. The readiness evaluation report must include any and all network administration changes needed to support BYOD/BYOT.

#### Definitions

A "device" as part of this protocol is a piece of privately owned and/or portable electronic handheld technology that includes emerging mobile communication systems and smart technologies, laptops and notebooks, and any technology that can be used for wireless internet access, word processing, image capture/recording, sound recording and information transmitting, receiving, and storing.

#### **Teachers' Role**

- Teachers are facilitators of instruction in their classrooms. Therefore, they will not spend time on fixing technical difficulties with students' personal devices in the classrooms. They will educate and provide guidance on how to use a device and troubleshoot simple issues, but they will not provide technical support. This responsibility resides at home with parents/guardians.
- Teachers may communicate information regarding educational applications and suggest appropriate tools that can be downloaded to personal devices at home. Parents will need to assist their younger children with downloads if they wish to follow teachers' suggestions. No applications are to be downloaded at school.
- Teachers are to closely supervise students to ensure appropriate use of technology in the classrooms.
- It is understood that not every student has his/her own electronic device. To ensure equal accessibility to technology resources, teachers will provide students with technology available within the school.
- The use of these student personal devices, as with any personally owned device, is strictly up to the teacher.

### Security and Damages

- The District, or any of its schools, is not liable for any device that is stolen or damaged. Responsibility to keep the device secure rests with the individual owner. If a device is stolen or damaged, it will be handled through the administrative office as other personal items are stolen or damaged. It is recommended that skins, decals, and other custom touches be used to identify physically a student's device from others. Additionally, protective cases for technology are encouraged.
- Personal devices cannot be left on campus before or after school hours.

### Operating Principles for Use of Personal Devices on School Campus

- 1 Devices cannot be used during assessments, unless otherwise directed by a teacher.
- 2 Students must immediately comply with teachers' requests to shut down devices or close the screen. Devices must be in silent mode and put away when asked by teachers.
- 3 Students are not permitted to transmit or post photographic images/videos of any person on campus on public and/or social networking sites.
- 4 Personal devices must be charged prior to bringing them to school and run off their own batteries while at school.
- 5 To ensure appropriate network filters, students will only use the District's wireless BYODI/BYOT connection in school and will not attempt to bypass the network restrictions by using 30 or 40 network.
- 6 Students must be instructed that bringing devices on campus or infecting the network with a virus, Trojan, or program designed to damage, alter, destroy, alter, or provide access to unauthorized data or information is in violation of the District's Acceptable Use Policy and will result in disciplinary actions.
- 7 The District has the right to collect and examine any device that is suspected of causing problems or is the source of an attack or virus infection.
- 8 Students must be instructed that possessing or accessing information on school property related to "hacking", altering, or bypassing network security policies is in violation of the Acceptable Use Policy and will result in disciplinary actions.
- 9 Students can only access files on the computer or Internet sites which are relevant to the classroom curriculum and suggested by a teacher.
- 10 Printing from personal devices is not permitted at school.
- 11 Students are not to physically share their personal devices with other students, unless approved in writing by their parent/guardian.
- 12 Personal devices may not be used to cheat on assignments, tests or for non-instructional purposes, such as making personal phone call and text/instant messaging.
- 13 Personal devices may not be used to send inappropriate e-messages during the school day.

### **Standards of Responsible Use**

#### All students in District schools must adhere to the following standards of responsible use:

- 1 The District may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private.
- 2 Students are responsible at all times for their use of the District's electronic communication system and must assume personal responsibility to behave ethically and responsibly, even when technology provides them the freedom to do otherwise.

- 3 Students must log in and use the District filtered wireless network during the school day on personal electronic devices.
- 4 Students must not access, modify, download, or install computer programs, files, or information belonging to others.
- 5 Students must not waste or abuse school resources through unauthorized system use (e.g. playing online games, downloading music, watching video broadcasts, participating in chat rooms, etc.).
- 6 Students must not alter computers, networks, printers or other equipment except as directed by a staff member.
- 7 Technology, including electronic communication, should be used for appropriate educational purposes only and should be consistent with the educational objectives of the District.
- 8 Students must not release personal information on the Internet or electronic communications.
- 9 If a student finds an inappropriate site or image, he or she must immediately minimize the program and contact the instructor.
- 10 Students must not create/publish/submit or display any materials/media that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another's reputation, or illegal and should report any instances encountered.
- 11 Students shall adhere to all laws and statutes related to issues of copyright or plagiarism.
- 12 Violation of any of these standards may result in suspension of computer use, Internet privileges and/or other disciplinary action.
